Large Animal (Horse, Camelids)–Experts and Topics

Daniela Bedenice, DVM – Assistant Professor, Large Animal Medicine

- Camelid (llamas, alpacas, camels) medicine
- Emergency and critical care, especially large animal neonatal care
- Pulmonology, especially non-invasive pulmonary testing and comparative physiology

Katherine Chope, VMD – Clinical Assistant Professor, Large Animal Medicine

- Competitive show jumping
- Equine ultrasound, Shock wave therapy

Jose Garcia-Lopez, VMD, Diplomate ACVS – Assistant Professor, Large Animal Medicine

- Orthopedic surgery and Magnetic Resonance Imaging (MRI)
- Respiratory and Gastrointestinal disease & surgery
- Stem cell healing of joints

Andrew Hoffman, DVM, DVSc, Diplomate ACVIM – Associate Professor

- Respiratory function and healing, especially device development, asthma and emphysema
- Stem cell therapeutics, especially for lung healing
- Translational research

Thomas Jenei, DVM – Staff Veterinarian, Large Animal Hospital

- Emergency and critical care
- Colic diagnosis and surgery
- Fractures in equine limbs

Carl Kirker-Head, Vet MB, MA – Associate Professor, Large Animal Medicine

- Orthopedic surgery, especially equine foot surgery
- Bone regrowth and remodeling

Melissa Mazan, DVM, Diplomate ACVIM – Associate Professor, Large Animal Medicine

- Equine respiratory system: pathophysiology of small airway inflammatory disease and equine sports medicine
- Effects of particulate matter air pollution on equine respiratory disease,
- Non-invasive lung function testing

Mary Rose Paradis, DVM, MS, Diplomate ACVIM – Associate Professor & Section Head, Large Animal Medicine

- Neonatal and geriatric equine medicine
- Intensive care and end-of-life issues for large animals

Patricia Provost, VMD, MS – Assistant Professor, Large Animal Medicine

- Soft-tissue surgery, especially colic
- Skin cancers and wound healing among large animals

Olivier Taeymans, DVM, PhD, Diplomate ECVI – Assistant Professor, Radiology

- Magnetic Resonance Imaging (MRI) in horses, Ultrasound
