

FY 2018 CLINICAL RESEARCH PROPOSAL DEADLINE

Deadline	Funding Agencies	Research for	Website
<p>No grant cycle (continues year-round)</p>	<p>American Kennel Club (AKC) Canine Health Foundation - ACORN program - a continuously running deadline</p> <p><i>Cost Estimates based on the below categories</i></p> <ul style="list-style-type: none"> • Ineligible for salary of tenure-track faculty (university) or professional, salaried senior-staff (non-profit or for-profit) • Institutional Indirect Costs (Max of 8%) 	<p>These are small grants with award decisions made within 90 days offered by AKC Canine Health Foundation (CHF).</p> <p>Program Areas:</p> <ul style="list-style-type: none"> • Behavior • Bloat Initiative • Blood Disorders • Cardiology • Clinician-Scientist Fellowship • Dermatology and Allergic Disease • Endocrinology • Epilepsy • Gastrointestinal Disease • General Canine Health • Liver Disease • Immunology and Infectious Disease • Lung and Respiratory Disease • Musculoskeletal • Neurology • Oncology • Ophthalmology • Renal Disease • Reproductive Health • Small Animal Theriogenology Residency • Tick-Borne Disease <p>These are small grants with award decisions made within 90 days offered by AKC Canine Health Foundation (CHF). These are \$12,000 (plus 8% indirect costs) grants for a term of 12 months or less. No grant cycle.</p>	<p>http://www.akcchf.org/</p>
<p>No grant cycle (continues year-round)</p>	<p>Collie Health Foundation</p> <ol style="list-style-type: none"> 1. Salary (non-professional/non-tenured) 2. Supplies 3. Sample Collection 4. Clinical Test 5. Lab Reagents or Supplies 6. Indirect cost (max 8%) 7. If Drug Manufacturer or Technology potentially benefits financially from the results of the study, indicate their contribution 8. Additional funds received from other sources 	<p>Collie Health Foundation</p> <p>Is accepting proposals for research into canine health problems associated with the collie. Of particular interest is collie breed-specific research that includes gastric volvulus-torsion, autoimmune skin disease and dermatomyositis, epilepsy, infertility, urinary incontinence in spayed females, and MDR1 clinical application.</p>	<p>http://colliehealth.com/researchers.asp</p>
<p>No grant cycle (There is no deadline for submitting a letter of intent; they are accepted and reviewed on an ongoing basis.)</p>	<p>Michelson Prize & Grants</p>	<p>Research in pursuit of non-surgical sterilant for cats and dogs. Investigators are encouraged to submit for "proof of concept" studies in cell culture, rodents, and/or target species.</p>	<p>http://www.michelsonprizeandgrants.org/</p>

<p>July</p>	<p>ACVIM Foundation/ Zoetis Externships (formerly Pfizer Animal Health) (No calls for this moment)</p> <p><i>Allowable costs –Funds from this grant may not be used to pay for faculty or resident salaries or travel / meeting costs (unless the travel is for the purposes of data collection). Purchase of major equipment (defined as any non-perishable item that costs over \$5000) is permitted but must be cost-shared with the sponsoring institution and well-justified. Up to 20% of the total direct costs for the project can be used for technical or student salaries. The grant will pay up to indirect costs (overhead) up to 8% of the direct costs.</i></p> <p>Morris Animal Foundation (MAF) - Large Animal Studies (Deadline: July 12)</p> <p><i>MAF does not pay for capital equipment (i.e., a single piece of equipment, including computers, costing \$1,000 or more), tuition, or salaries for faculty with full-time appointments. Salary requests for principal investigators with less than full-time appointments must be clearly defined and justified in the budget justification section and must include % appointment and other current salary support. You may request salary for support staff (i.e. technicians, graduate students,) based on their percentage of time involved in the project.</i></p> <p><i>MAF allows up to 8 percent of the yearly budget to be applied to indirect costs, if your institution charges for these costs. You must calculate your own 8 percent indirect costs and show them as a separate line item above each year's grand total. If your institution charges less than 8 percent, you may only claim the lower percentage.</i></p> <p>American Kennel Club (AKC) Canine Health Foundation (Deadline: August 01)</p>	<p>To fund 10 internal medicine residents in any of the five ACVIM specialties to experience an external rotation from their residency program. These funds are used to cover travel, accommodations and living expenses while on the externship.</p> <p>Established Investigator, First Award, and Pilot Study grants on topics relevant to large companion animal health and welfare (horses and llamas/alpacas).</p> <p>CCOGC Biospecimen Repository Tissue Sample Distribution</p>	<p>www.ACVIMFoundation.org</p> <p>http://www.morrisanimalfoundation.org/researchers/large-animal/</p> <p>http://www.akcchf.org/research/application-process/program-area-rfps/</p>
<p>August</p>	<p>AKC Canine Health Foundation (Deadline: August 17)</p>	<ul style="list-style-type: none"> • Canine Health Research 	<p>http://www.akcchf.org/research/application-process/program-area-rfps/</p>

<p>August</p>	<p>Consortium of Universities for Global Health (CUGH) (Deadline: August 20)</p> <p><i>The lead P.I. of a grant application must be a member of CUGH via university or individual affiliation.</i></p> <p><i>Grant funds shall not be used to pay or supplement salaries of the project leader. However, short-term NON-FACULTY staff support to implement CUGH Education Committee-approved projects involving data collection, analysis, etc., can be covered.</i></p>	<ul style="list-style-type: none"> • Strengthen educational programs in Low and Middle income countries* • Promote, develop and/or disseminate clinical and community case studies* • Special education-related events at the annual CUGH conference* • Identify and aggregate good practices, useful courses, teaching material, reports, and guidelines in global health for open access sharing on CUGH's website • Sponsor the development of educational materials and/or programs on the impacts of population growth on health and development • Education-related projects and/or products, including program evaluation • Survey planning, data collection and data analysis • CUGH Trainee Advisory Committee activities and projects • Purchase of Information Technology (IT) technician time for specialized education-related work, e.g., developing interactive educational features, updating of educational resources on CUGH's website. 	<p>http://www.cugh.org/</p>
<p>September</p>	<p>Comparative Gastroenterology Society (CGS) (Deadline: September 15)</p> <p><i>The maximum dollar amount for this grant is \$8,000 (no indirect costs will be paid by the CGS and no more than 10% of the grant may be used for travel to a major meeting to present the study results). No salary allowed.</i></p> <p>The American Veterinary Medical Foundation (AVMF) and the Veterinary Pharmacology Research Foundation (VPRF) (Deadline: September 15)</p> <p>Tufts CTSI Pilot Studies (Letter of intent Deadline: Has not announced yet – please check on their website)</p> <p><i>Will fund salary of principal investigator(s).</i></p>	<p>CGS/Royal Canin Professional Development Awards for GUTSKI 2018 travel</p> <p>This grant will only be available to members in training and good membership standing. Members in training are defined as members that are in a clinical or post-graduate training program. However, members who are already board-certified in any specialty will not be eligible for membership-in-training status, even if they are currently enrolled in a graduate program.</p> <p>Two types of grants will be awarded if there is adequate quality of submissions:</p> <ul style="list-style-type: none"> • Veterinary Pharmacology proposals for up to \$30,000 • Veterinary Pharmacokinetic proposals for up to \$15,000 <p>Tufts CTSI's Pilot Studies Program seeks proposals for innovative, high impact, translational science projects with a focus on building interdisciplinary, multi-institutional research teams including investigators from the basic, clinical, and/or applied sciences.</p>	<p>http://vetmed.tamu.edu/cgs/grants-awards</p> <p>http://www.avmf.org/programs/research-support/</p> <p>http://www.tuftsctsi.org/funding-opportunities/tufts-ctsi-pilot-studies-program/</p>

<p>September</p>	<p>The Grayson-Jockey Club Research Foundation (Deadline: October 02)</p> <p><i>Describe the specific functions of the personnel and consultants. If an annual increase in personnel costs is anticipated, give the percentage. For all years, justify any costs for which the need may not be obvious, such as specialized equipment, foreign travel, supplies, and determination of animal costs. For second year of support requested, justify any significant increases in any category over the first 12 month budget period. GJCRF will fund up to 10% of Indirect costs. Include the following headings where pertinent: PERSONNEL, CONSULTANT COSTS, SUPPLIES, TRAVEL, OTHER EXPENSES.</i></p> <p>Veterinary Orthopedic Society (VOS) (Deadline: October 01)</p> <p><i>This grant does not provide any money for professional salaries, indirect expenses, overhead, employee benefits or travel. Technical and clerical salaries will be critically scrutinized.</i></p>	<p>The Grayson-Jockey Club Research Foundation, Inc. supports research relevant to equine health and performance.</p> <p>VOS Hohn-Johnson/Wade O. Brinker Research Awards is to foster research related to musculoskeletal problems confronting veterinarians today.</p>	<p>http://www.grayson-jockeyclub.org/</p> <p>http://www.vosdvm.org/hohn-johnson-brinker-awards/</p>
<p>October</p>	<p>American College of Veterinary Surgeons (ACVS) (Deadline: November 01)</p> <p><i>ACVS Foundation funds may be used only for direct expenses of the project. Travel, consultative fees, publication fees, personnel costs and institutional overhead will not be funded by the grant.</i></p> <p><i>For the Zoetis Dual Training Research Grants ACVS Foundation funds may be utilized for tuition of the PhD candidate and/or the salary for the PhD candidate or technical support.</i></p> <p>Comparative Gastroenterology Society (CGS) (Deadline: November 01)</p> <p><i>The maximum dollar amount for this grant is \$12,000 (no indirect costs will be paid by the CGS and no more than 10% of the grant may be used for travel to a major meeting to present the study results). No salary allowed.</i></p>	<p>Zoetis Dual Training Research Grant Program - are available to ACVS residents or Diplomates who are currently enrolled in a PhD program.</p> <p>Surgeon-In-Training Research Grant Program are available to candidates in ACVS residency programs.</p> <p>Diplomate Clinical Research Grant Program - Only ACVS Diplomates are eligible to apply as Principal Investigators.</p> <p>CGS/Waltham Research Grant The proposed project must have clinical application in a veterinary species. Also, studies must conform to the ethical principles of Waltham (see below). Informed owner consent must be obtained from all participants in a clinical trial. Prior to funding these ethical principles must be addressed. CGS members in training (must be in good standing, i.e., dues must have been paid for the current membership year) are eligible to apply (with their mentor serving as the institutional principal investigator; the mentor must also be a CGS member in good standing).</p>	<p>https://www.acvs.org/foundation/</p> <p>http://vetmed.tamu.edu/cgs/grants-awards</p>

<p>October</p>	<p>The Grayson-Jockey Club Research Foundation (Deadline: November 01)</p> <p>Morris Animal Foundation (MAF) – Small Animal Studies (Deadline: November 01)</p> <p>ARF ALPACA Research Foundation (Pre-Proposals deadline: November 01)</p> <p><i>Budgetary Restrictions — ARF funds expendable supplies, initial cost and care of animals, technical support and publication costs directly related to approved projects. ARF does not fund equipment, renovations, purchase of computers, travel to meetings, professional or clerical salaries. ARF will fund hourly wages of technicians and students commensurate with their work on the project. All budget items must be well justified in writing including salary requests.</i></p> <p>American Quarter Horse Association (AQHA) (Deadline: November 01)</p> <p><i>BUDGET General and or Head Trauma Research applicants: The average grant request awarded is between \$25,000 and \$75,000. 1. AQHA will not fund salary of principal investigator(s), indirect costs, the purchase of capital equipment or travel to scientific conferences. 2. AQHA does not pay overhead no matter how it may be defined. 3. *AQHA will fund salaries of additional personnel such as lab technicians, graduate students and student workers. 4. AQHA will fund consumable supplies, service contracts and publication costs. 5. AQHA will fund the purchase, lease and care of horses. If horses are purchased, salvage value must be documented and deducted from the cost.</i></p> <p>Nestlé Purina Veterinary Residents' Research Grants (Deadline: November 01)</p>	<p>Two awards are available, the Storm Cat Career Development Award and the new Elaine Klein Development Award.</p> <p>Morris Animal Foundation is pleased to announce that we are accepting proposals for pilot projects pertaining to the Golden Retriever Lifetime Study. Proposals may request access to data and/or samples only. Please note that this call does not include funding.</p> <p>Genetics and Health</p> <p>Research projects related to the health, welfare and utility of the horse, and of importance to the horse owner and horse industry. Current research priorities include:</p> <ol style="list-style-type: none"> 1. Congenital diseases/genetics 2. Welfare 3. Infectious diseases/immunology 4. Musculoskeletal disorders and injuries 5. Reproduction <p>The objective of this program is to facilitate the advancement of knowledge in canine and feline nutrition and health care, as well as supporting the professional development of residents-in-training at veterinary institutions. These research grants do not necessarily have to be nutrition-related, although nutrition projects are given preference.</p> <p>Grants of up to \$15,000 for dog and cat nutrition research.</p>	<p>http://www.grayson-jockeyclub.org/</p> <p>http://www.morrisanimalfoundation.org/researchers/small-animal/</p> <p>http://www.alpacaresearchfoundation.org/</p> <p>http://www.aqha.com/Foundation/</p> <p>https://www.purinauniversity.com/ (need to register)</p>
-----------------------	---	--	---

<p>November</p>	<p>ISAZ Waltham Collaborative Research Award (Deadline: has not announced yet – Please check in their website)</p> <p>Tufts CTSI Pilot Studies (Letter of intent Deadline: Has not announced yet – Please check in their website)</p> <p><i>Will fund salary of principal investigator(s).</i></p> <p>Companion Animal Health Fund - Tufts Cummings School (CAHF)- Internal grants</p> <p><i>Do not fund salary of principal investigator(s).</i></p> <p>Morris Animal Foundation (MAF) – Wildlife/Exotics Studies (Deadline: November 15)</p> <p>The American Veterinary Medical Foundation (AVMF) and the Veterinary Pharmacology Research Foundation (VPRF) (Deadline: November 15)</p> <p>American Quarter Horse Association (AQHA) (Deadline: December 01)</p>	<p>A collaborative grant program to stimulate new research in the area of human-animal interactions.</p> <p>Tufts CTSI's Pilot Studies Program seeks proposals for innovative, high impact, translational science projects with a focus on building interdisciplinary, multi-institutional research teams including investigators from the basic, clinical, and/or applied sciences.</p> <p>Once a year the Fund for Companion Animal Health Committee solicits proposals from residents with a faculty advisor for research projects. The committee is looking for clear and concise, “do-able” projects which can ideally be completed within one year. The project should have a strong possibility of resulting in a first author publication for the resident when a resident is involved. The resident must be heavily involved in the project and should be exposed to research techniques and theories.</p> <p>Established Investigator, First Award, Fellowship Training and Pilot Study grants on topics relevant to wildlife/exotics health and welfare.</p> <ol style="list-style-type: none"> Genetics and epigenetics of health and disease Stress, biomarkers of stress and welfare, and the impact of stress on health outcomes Gut health and the association of microbiome with health outcomes <p>The American Veterinary Medical Foundation has announced a request for proposals focused on the management of pain originating from osteoarthritis or other diseases prevalent in older dogs. Funding is made possible through a bequest from the estate of Susan I. Maylahn.</p> <p>Eligibility of applicants is based on the individual criteria and requirements provided for each scholarship offered. Recipients are selected based on academic achievement, financial need and Quarter Horse involvement, as well as an applicant's outstanding leadership and communication skills.</p>	<p>http://www.isaz.net/isaz/research-award/</p> <p>http://www.tuftsctsi.org/funding-opportunities/tufts-ctsi-pilot-studies-program/</p> <p>Contact Dr. Lisa Barber for further information.</p> <p>http://www.morrisanimalfoundation.org/researchers/wildlife-exotics/</p> <p>http://www.avmf.org/programs/research-support/</p> <p>https://www.aqha.com/foundation/pages/scholarship-application/</p>
------------------------	---	--	--

<p>December</p>	<p>Winn Feline Foundation (Deadline: December 11)</p> <p><i>The Foundation does not fund salaries of investigators, major equipment expenditures, travel, publication or indirect costs. Salaries, supplies, and animal care costs not justified may be deleted from the budget.</i></p>	<p>Call for Grants: Call for Proposals released August 28, 2017 Deadline for proposals: December 11, 2017</p> <p>Review: March 16, 2018 Grant proposal status will be released by mid-May 2018. Awards will be announced by June 2018</p> <p>The Winn Feline Foundation is a non-profit, charitable organization that funds research into health issues affecting cats. Projects should have discrete and achievable goals within the funding limit. They must demonstrate their relevance or benefit to domestic cats.</p> <p>Studies applicable to all cats are encouraged. The Winn Feline Foundation is also interested in projects that address issues in individual breeds, nutrition and behavior. Although they are interested in all areas of feline health, they have dedicated funds for research in feline infectious peritonitis and hypertrophic cardiomyopathy. In addition to the aforementioned funds, current breed specific funding is available for Norwegian Forest Cat and Persian HCM studies and Birman heart disease studies in general.</p>	<p>http://www.winnfelinefoundation.org/grants/grant-process</p>
<p>January</p>	<p>Tufts Collaborates! (Deadline: has not announced yet) <i>Will fund salary of principal investigator(s).</i></p> <p>Tufts Innovates! (Deadline: has not announced yet) <i>Will fund salary of principal investigator(s).</i></p> <p>Tufts Seed grants (Deadline: has not announced yet)</p> <p>ACVIM Foundation/ Zoetis Externships (formerly Pfizer Animal Health) (No calls for this moment)</p> <p>Radiological Society of North America (RSNA) (Deadline: has not announced yet)</p> <p><i>The budget should be a complete and detailed listing of the costs associated with the proposed program, including part-time salary support, tuition, supplies and materials, etc. Specify the total project budget and the amount requested (if different than the total project budget). Explain how costs not covered by this grant will be paid (departmental funds, etc). The RSNA Research & Education Foundation does not pay institutional overhead costs or indirect costs.</i></p>	<p>Tufts University - Office of the Provost</p> <p>Tufts University - Office of the Provost</p> <p>for research or teaching</p> <p>ACVIM Foundation Fellowships in Clinical Research and/or Advanced Clinical Training</p> <ul style="list-style-type: none"> • Education Scholar Grant • RSNA/AUR/APDR/SCARD Radiology Education Research Development Grant 	<p>http://provost.tufts.edu/teaching-research/seed-grants-for-teaching-and-research/tufts-collaborates/</p> <p>http://provost.tufts.edu/teaching-research/seed-grants-for-teaching-and-research/tufts-innovates/</p> <p>See emails from the Dean</p> <p>https://acvimfoundation.org/grants/current-calls/</p> <p>http://www.rsna.org/Grants_and_Awards.aspx</p>

<p>January</p>	<p>USA Equestrian Trust (Grant application are no longer being accepted. Please check in next year.)</p> <p>Comparative Gastroenterology Society (CGS) (Deadline: January 15)</p> <p>The Council on International Veterinary Medical Education (CIVME) Funding Program (Deadline: January 30)</p>	<p>Equine Health Research Fund</p> <p>CGS/lams Eukanuba Professional Development Awards for a research meeting (such as Digestive Disease Week)</p> <p>The Council on International Veterinary Medical Education (CIVME) is an initiative of the American Association of Veterinary Medical Colleges which is keen to promote and share best practices in veterinary medical education around the world. The council will provide a means for:</p> <ul style="list-style-type: none"> • Communication and collaboration that advances veterinary medical education around the world • Collaboration amongst educational researchers • Dissemination of innovations and other educational advances, to magnify the impact of projects by outreach to educators and their respective organizations <p>The CIVME Funding Program will support initiatives that align with (one of) the above mentioned goals. The applicant(s) must clearly and convincingly describe that the proposed project promotes international collaboration in veterinary medical education.</p> <p>NOTE: preference will be given to applications that are collaborative efforts between institutions and across regions. If you have an idea and are interested in collaborating but don't have partners, then please contact CIVME at CIVME-grant@aavmc.org and we can help suggest potential partners for you to work with prior to the deadline.</p> <p>Total project budgets should not exceed \$10,000 and are limited for a period of max. 24 months. Further information for applicants is described in the Research Grant Application form.</p>	<p>http://trusthorses.org/</p> <p>http://vetmed.tamu.edu/cgs/grants-awards</p> <p>http://aavmc.org/civme/grant.aspx</p>
-----------------------	--	--	--

<p>February</p>	<p>Comparative Gastroenterology Society (CGS) (Deadline: February 15)</p> <p>American Academy of Veterinary Nutrition (AAVN)/ AAVN/WALTHAM® Research Grant for 'Early Career' Researchers (Deadline: has not announced yet – Please check in their website)</p> <p>American Quarter Horse Association (AQHA) (Deadline: March 01)</p>	<p>CGS Veterinary Student Summer Research Scholar Program</p> <p>The proposed project should have application to dogs and/or cats. The studies must conform to ethical principles of WALTHAM® (see below), and informed owner consent must be obtained from any participants in clinical trials.</p> <p>The amount of the grant is not set but will be considered on merit. Grants of up to \$25,000 will be considered, however the scientific proposal review board may choose to fund smaller grants of \$10,000 or less.</p> <p>The American Quarter Horse Foundation is pleased to support education in the field of equine-assisted activities and therapies (EAAT). Through the America's Horse Cares grant program:</p> <p>General Fund – decisions for the general fund will support Individualized Employee/Volunteer Training and Center Immersion Training through approved educational clinics and or workshops. Requests must be made by the facility and are subject to the organizational requirements listed above. Grant proposals for funding outside the scope of these areas will not be considered for funding.</p> <p>Arizona Fund – decisions for the Arizona fund will support Individualized Employee/Volunteer Training, Center Immersion Training and scholarships or financial assistance for client expenses. Requests must be made by the facility and are subject to the organizational requirements listed above. Grant proposals for funding outside the scope of these areas will not be considered for funding. Applicants for the Arizona fund may not submit an application for general grant funding.</p>	<p>http://vetmed.tamu.edu/cgs/grants-awards</p> <p>http://www.aavn.org/research-grants/</p> <p>https://www.agha.com/foundation/pages/wwwaqhacomahcaresapplication/</p>
<p>March</p>	<p>Morris Animal Foundation (MAF) – Small Animal Studies (Deadline: No calls for this moment, please check in next year)</p> <p>ARF ALPACA Research Foundation (Full-Proposals deadline: April 01)</p>	<p>There are currently no calls for Small Companion Animal (Dog and Cat) proposals on the traditional application cycle (Established Investigator, First Award, Fellowship Training and Pilot Study).</p> <p>Genetics and Health</p>	<p>http://www.morrisanimalfoundation.org/researchers/</p> <p>http://www.alpacaresearch.org/investigators/full-proposal</p>

	<p>American Association of Equine Practitioners Foundations, Inc. (AAEP) (Deadline for proposals: April 01) <i>The AAEP Foundation does not pay for overhead or indirect costs for research or project grants.</i></p> <p>Radiological Society of North America (RSNA) (Deadline: April 02)</p> <p>Internal pilot grants to facilitate faculty research collaborations between TCSVM and UMass Psychiatry</p>	<p>Benevolent Program Support: The Foundation will consider and recruit benevolent funding requests that are relevant to national and global issues, meet the Foundation's mission and help multiple horses. Grants may be awarded in the following areas:</p> <p>1. Equitarian Support - Programs that benefit working equids of the world, particularly those that are found in impoverished areas. Priority will be given to programs with the broadest reach and those that work toward sustainability within the population visited and meet other requirements listed within the application instructions.</p> <p>2. Disaster Preparedness and Relief - The Foundation will consider applications that help multiple horses involved in natural disasters, including tornadoes, hurricanes, floods, drought, blizzards, wildfires, earthquakes, and health disasters (epidemics), with an emphasis on projects that support preparedness programs. However, emergency funding support will be considered as well.</p> <p>Roentgen Resident/Fellow Research Award</p> <ul style="list-style-type: none"> • Recognizes and encourages trainees who have played an active role in radiologic research during the past year. • Participating North American residency programs receive an award plaque with room for each year's nominee. The Foundation provides a personalized award for the department to present to the selected resident or fellow. <p>Facilitate faculty from both institutions better competing for extramural support</p>	<p>https://foundation.aaep.org/apply-for-funding/grants</p> <p>http://www.rsna.org/Grants_and_Awards.aspx</p> <p>Contact Associate Dean Sawkat Anwer for further information.</p>
<p>April</p>	<p>American Kennel Club (AKC) Canine Health Foundation (Next call for proposals maybe in April)</p> <p>American Kennel Club (AKC) Canine Health Foundation (Next call for proposals maybe in April)</p> <p>Morris Animal Foundation (MAF)</p>	<p>Dermatology and Allergic Skin</p> <p>Manuscript Request - Risk Assessment and Management Strategies to Prevent Transmission of Infectious Disease in Dogs</p> <p>The next call for Large Companion Animal (Horses and Llamas/Alpacas) proposals will be in mid-April, 2018</p>	<p>http://www.akcchf.org/research/application-process/program-area-rfps/</p> <p>http://www.akcchf.org/research/application-process/program-area-rfps/</p> <p>http://www.morrisanimalfoundation.org/</p>

<p>April</p>	<p>Nestle Purina Petcare Resident Research grants (Deadline: May 01)</p>	<p>The objective of this program is to facilitate the advancement of knowledge in canine and feline nutrition and health care, as well as supporting the professional development of residents-in-training at veterinary institutions. These research grants do not necessarily have to be nutrition-related, although nutrition projects are given preference.</p>	<p>https://www.purinauniversity.com/ (need to register)</p>
<p>May</p>	<p>American Kennel Club (AKC) Canine Health Foundation (Next call for proposals maybe in May)</p> <p>American Kennel Club (AKC) Canine Health Foundation (Next call for proposals maybe in May)</p> <p>American Kennel Club (AKC) Canine Health Foundation (Next call for proposals maybe in May)</p> <p>American Kennel Club (AKC) Canine Health Foundation (Next call for proposals maybe in June)</p>	<p>Reproduction Research</p> <p>Development of an Accurate Diagnostic Assay for Canine Hypothyroidism</p> <p>Epilepsy Research Initiative</p> <p>Combined Musculoskeletal and Neurology</p>	<p>http://www.akcchf.org/research/application-process/program-area-rfps/</p> <p>http://www.akcchf.org/research/application-process/program-area-rfps/</p> <p>http://www.akcchf.org/research/application-process/program-area-rfps/</p> <p>http://www.akcchf.org/research/application-process/program-area-rfps/</p>
<p>June</p>	<p>Veterinary Comparative Respiratory Society (VCRS) (Next call for proposals maybe in June)</p> <p><i>BUDGET for the activity described in plan of work and experimental design (No. 1 above). 1 page maximum</i></p> <p><i>The budget categories are as follows.</i></p> <p><i>a) Materials and supplies</i></p> <p><i>b) Non-expendable equipment</i></p> <p><i>c) Salaries and wages. Faculty salaries will not be funded (These are considered cost sharing by the department). As a general policy, technicians and graduate student salaries will NOT be funded. However, consideration will be given in exceptional cases. Salaries for student (e.g. undergraduate or veterinary students) employees may be considered.</i></p> <p><i>d) Indirect costs – The VCRS, a non-profit organization, does not pay for overhead or indirect cost for research grants.</i></p> <p>American Kennel Club (AKC) Canine Health Foundation (Next call for proposals maybe in June)</p>	<p>Addressing issues of importance to the respiratory system with the goal of improving animal health</p> <p>Ophthalmology Research</p>	<p>http://www.the-vcrs.org/</p> <p>http://www.akcchf.org/research/application-process/program-area-rfps/</p>

<p>June</p>	<p>American Kennel Club (AKC) Canine Health Foundation (Next call for proposals maybe in June)</p> <p>American College of Veterinary Radiology (ACVR) (Next call for proposals maybe in July)</p>	<p>General Canine Health & Obesity Research</p> <p>Deadline for ACVR Resident Research Grant Applications (6 grants total: two ACVR grants, one Veterinary Ultrasound Society grant, one CT/MRI Society grant, one Large Animal Diagnostic Imaging Society grant and one Society of Veterinary Nuclear Medicine grant).</p>	<p>http://www.akcchf.org/research/application-process/program-area-rfps/</p> <p>www.acvr.org</p>
